INTERNSHIP/EXPERIENCE

Front-end Intern

Cloud Counselage

July 2023-Sept 2023

- The project includes designing a user interface for a Professional network on the Internet that can be used to find the right job or internship, connect and strengthen professional relationships, and learn the skills you need to succeed in your career.
- This project has been developed using React + Vite + Firebase and the platform has been designed to be user-friendly, secure, scalable, and performant.

PROJECTS

Treasure [LINK](#) | [CODE](#)

- The project 'Treasure' is a treasure hunt game around the theme music.
- There are five clues in this game in which each person crosses a clue and then moves forward to the next one in a sequence and reaches the Treasure.
- This game also consists of DEAD-ENDS.

Job Portal [LINK](#) | [CODE](#)

- A LinkedIn clone using React.js, Firebase, and Vite is a web application that replicates the core features of the professional networking platform LinkedIn. It is built using the React JavaScript framework, the Firebase backend-as-a-service platform, and the Vite build tool

ACHIEVEMENTS

- Qualified for round 1 of **Code Jam** 2022 with 44 pts.
- Solved **500+** problems across different platforms
- Secured the Global Rank **8** in January Long -II Challenge 2022 **Codechef**.
